Dear Ms. Dutra Krause:

We have reviewed your letter dated April 21, 2015, requesting temporary suspension of certain day and hour operational limits due to the governor's drought emergency declaration, and the need to ship material by barge to install emergency salinity barriers in the Delta by the Department of Water Resources.

Pursuant to the Surface Mining and Quarrying Permit # Q-72-03, Condition 33, Declared Public Emergency, this letter is to confirm the County of Marin's conditional approval to suspend days and hours limitations found in Condition 32 for *Barge Loading (truck or conveyor) Operations* only, for a 45 day period beginning on May 1 and ending on June 14, 2015. This means that there are no operational time restrictions for only barge loading during the subject period.

No other days or hours limitation conditions are suspended, including but not limited to, trucking and crushing plant operation. The County will be independently monitoring sound levels with our equipment and if the mining permit noise level limits are exceeded, or for other public safety consideration, the County may change the temporary suspension.

Please note that the quarry is responsible for posting on its website prior to commencing the work an explanation of the location of the public emergency and facts relating to the suspension, and when the work is completed, total hours of operation.

Please do not hesitate to contact me at (415) 499-6528 should you have any questions.

Very truly yours,

FOR Raul M. Rojas
Director
