**SUBJECT: Department of Health and Human Services, Division of Social Services at the request of the Marin County Child Care Commission requests approval of the Commission's *Local Funding Priorities Area Report*.**

Dear Supervisors:

**RECOMMENDATION:**

1. Approve the Marin County Child Care Commission's *Local Funding Priorities Area Report*.

**SUMMARY:** The primary mission of local planning councils like the Marin County Child Care Commission is to plan for child care and development services based on the needs of families in the local community. Each year the Marin County Child Care Commission reviews local data and identifies local funding priorities for the distribution of any new state general child care and development and new preschool funding. The subsequent report is submitted to the California Department of Education (CDE) and helps promote equal access to child development services across the state. If there are changes in priorities, compared to the previous year, the CDE requires your Board's approval of the *Local Funding Priorities Area Report* before submission.

**FISCAL IMPACT:** There is no fiscal component associated with the approval of this report.
